Wintex Industries Dura-Loc, Inc.
17221 Alico Center Rd #2
Fort Myers, FL 33967

To Whom It May Concern:

I contracted with Dura-Loc Roofing in April of 2008 to have my roof done. I had problems with my flat deck and they sent out there General Manager, Armand who suggested that I needed a new flat deck.

They replaced the flat deck. There workmanship was excellent. All work was done in a timely manner and I am very pleased with the work.

I truly recommend a Dura-Loc roof for anyone who wants peace of mind for the upcoming Hurricane Season.

Sincerely,

Roy Dunn

To Whom It May Concern:

Over the past year, we have contracted Wintex Industries Dura-Loc, Inc. to coat two of our commercial properties located in Fort Myers, Florida. We had the building that Norman Love Confections operates in done in May 2008 and the building that Walgreen/Option Care operates in completed in July 2008. Both buildings are about five years in age and have standing seam metal roof covers.

Wintex made the process very simple to complete. Once completed, the FPL certificates were sent off for approval by Wintex. Upon approval, about seven days, they started the coating of the building. In addition, Wintex coordinated the project with us in an effort to minimize the impact on our tenants.

The economics of the coating was very cost effective due to the incentive received from FPL to offset the cost. Since the work has been completed, we have noticed an approximate 20% decrease in our energy bill on these properties. We would recommend this system for any property and anyone who wants to protect their investments as well as retain their tenants.

Sincerely,
